CONNECTING EUROPE FACILITY - Telecom Grants 2014-2020

European Platform for Digital Skills and Jobs

Following the Skills Agenda adopted in June 2016, the European Commission launched the Digital Skills and Jobs Coalition to develop a large digital talent pool and ensure that individuals and the labour force in Europe are equipped with adequate digital skills.

The European Platform for Digital Skills and Jobs DSI supports the connection of the infrastructures (websites) of National Digital Skills and Jobs Coalitions (National Coalitions) with the Core Service Platform through interoperable links, integrating and enabling exchanges with the Core Service Platform components. It will help National Coalitions and other stakeholders to provide coherent and structured content and services on digital skills in the official language(s) of the Member State or Norwegian/Icelandic.

The National Coalitions in combination with the Core Service Platform will make digital skills initiatives from all over Europe more accessible. These services will highlight good practices and financing opportunities, gather information about digital skills intelligence and careers. They will help students and job seekers to find training/traineeship opportunities, support enterprises in addressing skills needs, train employees, facilitate scale-up of innovative training solutions, strengthen cooperation between the National Coalitions and enable learning across sectors and borders.

The design and delivery of Master programmes specialised in digital domains to be disseminated via the Digital Skills and Jobs Core Service Platform is also foreseen. These programmes will target advanced digital skills development to address the lack of highly specialised digital skills in Artificial Intelligence (AI).

26 agreements have been signed for the European Platform for Digital Skills and Jobs DSI under the 2019 and 2020¹ calls. A total of €8.87 million of CEF Telecom funding has been earmarked for 25 Member States and one EEA to a total cost of 11 million€.
